

Montageanleitung

Trio Stop
15981180

hansgrohe

Eingebaute und geprüfte Trio einputzen, bzw. bei Vorwandinstallation mit Paneel verkleiden.

Nach Austrocknen der verputzten Wandoberfläche, die Nahtstelle zwischen Wand und Kunststoffgehäuse der ibox universal mit Silikon (essigsäurefrei!) ausspritzen.

PCI-Lastogum oder einen vergleichbaren Dichtstoff nach Herstellerangaben auf die Wand auftragen.

Dichtmanschette über das Kunststoffgehäuse der ibox universal stülpen und in den Kleber und Silikon eindrücken.

Achtung! Die Dichtmanschette darf nicht heißverklebt werden. Falls die Trio Stop Ab- / Umstellung heißverklebt werden soll, muß darauf geachtet werden, das diese nicht beschädigt wird.

Instructions de montage

Trio Stop
15981180

hansgrohe

silencieux

Maçonner ou habiller avec des plaques de montage l'Trio déjà montée et testée.

Après le séchage de l'enduit, étancher la fente entre l'ibox et le mur avec un joint de silikon (sans acide acétique!).

Recouvrir le mur avec du PCI-Lastogum ou un matériel d'étanchéité comparable.

Enfoncer le joint d'étanchéité autour du boîtier de l'ibox sur le matériel d'étanchéité et sur le joint de silikon.

Attention! La manchette étanche ne doit pas être collée à chaud. Au cas où l'arrêt / inverseur Trio Stop devrait être collé à chaud, veiller à ne pas l'endommager

assembly instructions

Trio Stop
15981180

hansgrohe

Tub outlet

Plaster in the installed Trio, in case of pre-wall installation cover the Trio with a panel.

After the plastered wall surface is dry seal the gap with silicone (free from acetic acid!) between wall and plastic housing of the ibox.

Apply PCI-Lastogum or similar sealing compound on the wall in accordance with manufacturers indications.

Put gasket over the plastic housing of the ibox.

Important! The gasket is not suitable for hot glue. If the Trio Stop should be hot glued, please take care that it is not damaged.

Istruzioni per Installazione

Trio Stop
15981180

hansgrohe

sorbente acusti-cor

Pulire l' 'Trio' e installato e collaudato ed in caso di installazioni sulla.
Parete coprire con il pannello.

Quando la parete si è asciugata sigillare con silicone (esente da acido acetico!) il punto di congiunzione tra parete e scatola in materiale plastico dell' ibox universale.

Applicare sulla parete PCI-Lastogum o un materiale a tenuta ermetica simile in base alle indicazioni fornite dal produttore.

Applicare la guarnizione in dotazione all' ibox universale.

Attenzione! Il manicotto di tenuta non deve essere incollato a caldo.

Nel caso l'inserto arresto/inversione Trio deve essere incollato caldo, allora bisogna fare attenzione che questi non vengono danneggiati.

Silenciador

Poner silicona en la fuga entre el cuerpo de plástico del Trio y la pared

Poner silicona (¡libre de ácido acético!) en la fuga entre el cuerpo de plástico del ibox universal y la pared.

Aplicar en la pared una cola estanqueizadora según las indicaciones del fabricante.

Colocar la junta suministrada sobre el cuerpo de plástico del ibox universal y apretar contra la cola y silicona en la pared.

¡Atención! El manguito de estanqueidad no debe pegarse en caliente

En caso de que deba pegarse en caliente el dispositivo de apagado/cambio Trio Stop, debe tenerse cuidado de que no resulte dañado.

Handleiding

Trio Stop
15981180

hansgrohe

ruisdemper

De ingebouwde en geteste Trio aansmeren of met voorzetwand systeem ombouwen.

Na het drogen van de aangeheelde wand de ruimte tussen de muur en het kunststof huis van de ibox universeel met siliconenkit (azijnzuurvrij!) afdichten.

PCI Lastogum of een vergelijkbaar afdichtingsmateriaal (zie voorschriften fabrikant) op de wand aanbrengen.

De dichtmanchet over het kunststof huis van de ibox universeel schuiven en in dichtmateriaal en siliconenkit vastdrukken.

Attentie! De dichtmanchet mag niet warm omwikkeld worden. Als de Trio Stop stop- / omstelkraan heet moet worden gelijmd, moet erop worden gelet dat hij niet beschadigd wordt.

Monteringsvejledning

Trio Stop
15981180

hansgrohe

Lydudkoblingen

Der pudses op omkring den indbyggede og afprøvede Trio; ved installation foran væggen sættes paneler op.

Når væggen er tør, fuges der med silikone (eddikesyre-fri) rundt om universal iboxens kappe.

Påfør væggen vådrumsmembran eller en lignende klæbemasse.

Tætningsmanchetten trækkes over universal iboxens kunststofkappe og trykkes fast i klæbemassen.

Advarsel! Der må ikke bruges smeltelim til tætningsmanchetten. Hvis Trio Stop afbryderen / omskifteren skal smeltelimes, skal der holdes øje med at den ikke beskadiges.

Isolamento acústico

Limpar a parede à volta da Trio instalada e testada, no caso de ser embutida cobrir a Trio com um painel.

Depois da área limpa secar, selar o intervalo que ficou entre a parede e a caixa plástica da ibox com silicone (sem ácido acético).

Aplicar PCI-Lastogum ou um composto vedante similar na parede de acordo com as indicações do fabricante.

Colocar o disco de borracha sobre a caixa plástica da ibox e pressionar contra a cola e a silicone.

Atenção! A junta de vedação não pode ser colada a quente. Se pretender efectuar uma colagem quente da adaptação Trio Stop, é necessário ter em atenção que esta não seja danificada.

隔音装置

安装的Trio中有水泥，如果是预先在墙壁上安装，使用板子覆盖Trio。

清洁过的边壁表面干燥后，使用硅树脂研磨ibox universal边壁和塑料外壳之间的间隙部位。

遵照制造商的说明，在边壁上使用PCI胶黏层或类似的密封材料。

清洁ibox universal塑料外壳上的密封涂层并将其压入粘贴材料和硅树脂内。

注意！ 不能热粘贴密封涂层。
如果三档关闭/转换装置需要热粘接，则必须注意不使之受损。

Шумоизоляция

Замуруйте установленный и проверенный Trio , или при настенной установке закройте панелью.

После высыхания оштукатуренной поверхности стены место шва между стеной и пластмассовым корпусом iBox universal заполните силиконом.

Нанесите на стену PCI-Lastogum или подобный герметик, указанный изготовителем.

Уплотнительную манжету наденьте на корпус iBox universal и вдавите в клей и силикон.

Осторожно! Уплотнительную манжету не разрешается приклеивать горячим способом. При склеивании в горячем состоянии не допускайте повреждения трехходового сигнального выключателя/переключателя Trio.

Szerelési útmutató

Trio Stop
15981180

hansgrohe

Zajmentesítő

A beépített és ellenőrzött Trio t vakoljuk be, illetve könnyűszerkezetes falrendszereknél gipszkartonnal burkoljuk.

Az ibox műanyag háza és a vakolat ill. gipszkartonlap között keletkezett rést szilikonnal (ecetsavmentes!) töltjük ki.

Hordjuk fel a falra a PCI-Lastogum-ot vagy a hasonló szigetelőanyagot a gyártó előírásainak megfelelően.

A szigetelő gumigyűrűt helyezzük az ibox universal műanyag házára, azután nyomjuk be a ragasztóanyagba és szilikonba.

Figyelem! A szigetelő gumigyűrűt nem szabad forrón felragasztani. Ha a Trio Stop leállító / váltószelepet forrón kell ragasztani, akkor ügyelni kell arra, hogy ne rongálódjon meg.

Trio Stop
15981180

hansgrohe

Skaņu slāpējošs pieslēgums

Pieslēgumam ir jābūt piemērotam plakanajam blīvējumam

Pēc tam, kad nožuvusi apmetās sienas virsma, šuvi starp sienu un ibox universal plastmasas korpusu aiztaisiet ar silikonu.

Atbilstoši ražotāja norādījumiem uzklājiet uz sienas PCI-Lastogum vai līdzīgu hermētīķi.

Uzlieciet uz ibox universal plastmasas korpusa blīvēšanas manšeti un iespiediet līmē un silikonā.

Uzmanību! Blīvēšanas manšeti nedrīkst salīmēt ar karstu līmi. Ja Trio Stop apturētājs/pārslēdzējs ir jālīmē ar karsto paņēmienu, jāuzmanās, lai nerastos bojājumi.

hansgrohe

Zvučna izolacija

Priključak mora biti prikladan za pljosnatu zaptivku.

Nakon sušenja omalterisanog zida potrebno je da se spoj između zida i plastičnog kućišta jedinice ibox universal poprska silikonom.

Nanesite na zid PCI-Lastogum ili neki slični zaptivni materijal u skladu sa navodima proizvođača.

Prevucite zaptivnu manžetnu preko plastičnog kućišta jedinice ibox universal pa je utisnite u lepak i silikon.

Pažnja! Zaptivna manžetna ne sme da se lepi vrućim lepkom. Ako Trio za zaustavljanje, zatvaranje i preusmeravanje mora biti vruće prelepljen, mora se paziti da se ne ošteti.

Montasjeveiledning

Trio Stop
15981180

hansgrohe

Innbygd og kontrollert Trio pusses over, hhv. ved installasjon foran veggen dekkes det til med panel.

Etter tørking av pusset veggoverflate skal sprekken mellom veggen og plastkabinettet til iboxen tettes med silikon (uten eddiksyre!).

PCI-Lastogum eller en lignende tetningmasse påføres veggen iht. produsentforskrifter.

Tetningsmansjett trekkes over plastkabinettet til ibox universal og trykkes inn i limet og silikonet.

Obs! Tetningsmansjett må aldri limes varm.

Hvis Trio Stop av- / omstilling skal limes inn varm, skal man passe på at den ikke skades.

РЪКОВОДСТВО ЗА МОНТАЖ

Trio Stop
15981180

hansgrohe

Заглушитель

Нанесете мазилка върху монтираната и проверена Trio или я облицовайте с панел при монтаж пред стена.

След изсъхване на мазилката на повърхността на стената, мястото на свързване между стената и пластмасовия корпус на iBox universal да се напръска със силикон (без оцетна киселина!).

На стената да се нанесе PCI-Lastogum или уплътняващ материал, подобен на него по данни на производителя.

Уплътнителният маншет да се нахлузи на пластмасовия корпус на iBox universal и да се залепи със силикон като се притисне.

Внимание! Уплътнителният маншет не трябва да се лепи по топъл начин.

В случай, че спирането / превключването Trio Stop трябва да бъде залепено по топлия начин, внимавайте да не го повредите.

Udhëzime rreth montimit

Trio Stop
15981180

hansgrohe

Ndarësi i ekos

Suvatoni Trion e montuar dhe të kontrolluar, respektivisht mbulojeni me panele, nëse instalimi bëhet jashtë murit.

pas tharjes së murit të suvatuar duhen mbyllur me silikon (pa acid uthulle!) hapësirat me murit dhe kutisë plastike të ibox-it.

Lyeni murin me PCI-Lagostum ose me ndonjë lëndë të ngjashme izoluese.

Vini manshetën izoluese mbi kutinë plastike të ibox universal dhe shtypeni në ngjitësin dhe silikonin.

Kujdes! Mansheta izoluese nuk duhet ngjitur me ngjitës të nxehtë. Nëse ndërruesi i pozicionit të Trios ngjitet me ngjitës së nxehtë, atëherë duhet pasur kujdes që të mos dëmtohet.
