

A105

Technical drawings of three types of fire extinguishers: A105/450, A105/850, and A105/1200. The drawings show the front and side views of each unit. The side view includes detailed dimensions for the mounting bracket and the extinguisher body. The dimensions are as follows:

- A105/450:** Height 450mm.
- A105/850:** Height 850mm.
- A105/1200:** Height 1200mm.

The mounting bracket dimensions are:

- Width: 170 - max 200mm
- Height: 170 - max 200mm
- Distance between mounting points: 510mm
- Mounting points: 230mm apart
- Mounting points: 180mm apart
- Mounting points: 55 - 145mm apart
- Mounting points: 90 - 225mm apart
- Mounting points: 56mm apart
- Mounting points: 70 - 290mm apart
- Mounting points: 290 - 360mm apart
- Mounting points: 100 - 160mm apart
- Mounting points: 300 - 380mm apart

The mounting bracket is made of G 1/2" material and has a diameter of Ø50mm. The extinguisher body has a diameter of Ø50mm and a height of 90 - 225mm.
